KERALA TECHNOLOGICAL UNIVERSITY

Amal Jyothi College of Engineering, Kanjirappally

Integrated MCA

Cumulative GPA: 7.68

Relevant Coursework: Software Development; Operating Systems; Software Deployment

Kerala, India

August 2018 - May 2023

SENIOR SECONDARY EDUCATION

SNDP Higher Secondary School, Venkuringi

Grade : 75%

Kerala, India

Jul 2016 - Jul 2018

WORK EXPERIENCE

Nook Home Properties - 6 Months

Dubai, UAE

IT & Digital Operations Associate

Jan 2025 – June 2025

- Managed the company's complete IT infrastructure, including hardware, software, network systems, and user support, ensuring seamless day-to-day operations.
- Maintained and updated the company website built on WordPress, implementing necessary changes, plugins, and SEO optimizations to enhance performance and user experience.
- Collaborated with the website and marketing teams to elevate the digital presence, contributing to website

enhancements and social media strategies.

- Led a team of social media executives, providing direction and support to strengthen branding, increase engagement, and align digital efforts with business objectives.
- Delivered efficient IT solutions for internal system issues, reducing downtime and improving workflow across departments.
- Managed IT procurement processes, recommending the most suitable hardware, software, and tools according to operational needs and budget.
- Utilized Microsoft 365 tools for creating and organizing documentation, including SharePoint, Excel, Word, and OneDrive.
- Conducted SEO and performance analysis using Google Analytics, Google Search Console, and Google My Business to improve online visibility and search rankings.
- Administered Microsoft 365 user accounts via the Microsoft Admin Center, managing access control and license allocation.
- Created and edited digital content for marketing using Canva and CapCut, including video shooting for advertisement campaigns.
- Installed and configured IT devices, systems, and office tech infrastructure, ensuring reliable functionality.
- Provided strategic input on the selection of CRMs and software solutions, advising on the best options for scalability and efficiency within allocated budgets.

ILE iLearningEngines India Pvt. Ltd - 1.5 Years

Trivandrum, India

Software Engineer

July 2023 – November 2024

- Developed and maintained front-end components using React.js, contributing to the successful implementation of a Learning Management System (LMS) platform.
- Leveraged Node.js for server-side rendering and creating efficient APIs, optimizing performance and responsiveness.
- Provided comprehensive technical support to clients, troubleshooting issues related to React.js, Node.js, and other web technologies.
- Collaborated closely with development teams to identify and resolve software bugs and issues, ensuring optimal system performance.
- Demonstrated excellent problem-solving skills, effectively communicating with clients to understand and resolve their technical concerns.
- Actively participated in continuous improvement efforts, contributing ideas and solutions to enhance product stability and customer satisfaction.
- Collaborated directly with clients to understand their project requirements, clarify functional expectations, and address concerns throughout the development cycle.
- Implemented root cause analysis to efficiently pinpoint and resolve front-end problems, improving overall application stability and user experience.
- Designed and prototyped user interface (UI) layouts using Figma, collaborating with designers to translate wireframes into functional React components.
- Documented test cases and logged bugs, collaborating with the development team to resolve issues prior to production releases.
- Developed AI-powered test generation features to enhance assessment automation and improve user experience.

- Integrated Loom for seamless video communication and collaboration, streamlining team workflows.
- Optimized database queries, significantly improving data retrieval efficiency and accuracy.
- Led the redesign of user interfaces and web pages using Figma for design and React for front-end development.
- Integrated and optimized PowerPoint presentations, enhancing their functionality and presentation flow.

PROJECTS

Jobsnatch

November 2022 – April 2023
